

DIH-WORLD EXPERIMENT: DIGITAL WAREHOUSE

92.900,00 EUR EU-funded experiment that helps create a solid ground for long-term ambition to enter global markets and have efficient everyday operational capacities.

Seal-mart d.o.o. is a manufacturing SME selling all kinds of sealing solutions, gaskets and engineered plastic and rubber parts for different industry players (including maritime, wood, food, construction).

BlueDIH will assist Seal-mart during the experiment by providing dissemination and growth support, as well as by engaging an external expert for needs analysis and feasibility study to provide main features and architectural solution.

Technologies **implemented** during the project:

GLOBAL E-COMMERCE
PLATFORM

AUTOMATED
STORAGE AND
RETRIEVAL
SYSTEM

WAREHOUSE
MANAGEMENT
SYSTEM
SOFTWARE
